Working with Can-Do Graphics was the best thing that Universal Disc Jockeys could have done. Can-Do Graphics helped Universal Disc Jockeys with creating and designing a whole new look including a new website, logo, business cards and special promotional items. As a result of our new Can-Do created look, **customers instantly see us as a more credible, million dollar business.** The new look has increased traffic to our website, but most importantly increased our business immensely. Our leads produced since the change **have increased 1000%.** Previously, Universal Disc Jockeys had the staff and word of mouth credibility, but **now we have the credible look behind us with a fantastic website that impresses all and blows everyone in the market out of the water.**

The team at Can-Do Graphics really **went above and beyond** to make sure that we were completely satisfied with every step of the process and impressed with the final result. They made sure that we were included in all of the decisions and processes along the way. Everything was always clear as to where we were going with the project. The reliability of the entire team exceeded our expectations in meeting deadlines. The **value and service was a great investment** that we could not have gotten elsewhere and the results prove that to us on a daily basis. Universal Disc Jockeys recommends Can-Do Graphics without reservation and will continue to do business with them for years to come.

First of all, everyone that has visited the site has come back with their first comment being "it is a very well designed site" and **I've even had a few "it's the best personal website I've seen."**

You have done an incredible job with the designs, but even more importantly, I feel very comfortable with you doing it. I truly feel that even though you have some control of what goes on there (as you are the one to put it on there), **I know you will always check with me and listen to my feedback.**

I wouldn't want anyone else to work on the site! Seriously, you've been one of the most professional people I have ever worked with, and extremely creative as well!

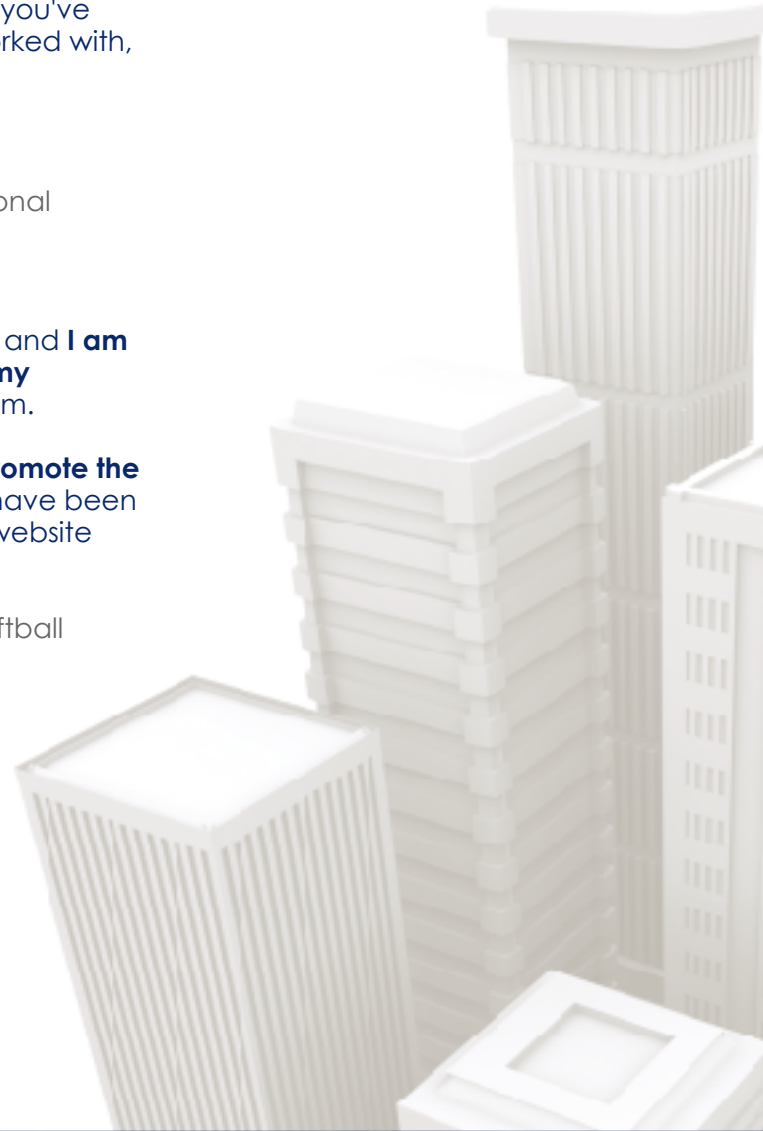

The whole site is amazing. Truly amazing.

- Lauren Bay, Canadian Olympic Softball Pitcher, Professional Softball Player for the Chicago Bandits

I have had an opportunity to work with Can-Do Graphics and **I am just amazed at what the company has done for me and my website.** I have had the best experience working with them.

Can-Do Graphics has **made it very easy for me to help promote the game of softball as well as keep fans informed** of what I have been up to. I have had many wonderful comments about my website and **I can't thank them enough.**

I know that when a business card is handed to a potential client **I have only about 3-6 seconds to grab their eye.** So the business card is one of a number of important first impressions.

Discover What Business Owners Just Like You Have to Say About Can-Do Graphics

I had saved money and used my own time for many years by printing my own business cards, brochures, and flyers using my own HP printer and Avery paper. Whew! **It was a long, arduous process, which had many errors that I thought, "no one would notice".**

As I grew, I realized that **I could no longer risk my own integrity as a business with "home-made" artwork.** After seeing one of my colleague's business cards, I contacted Can-Do-Graphics to work up a new look of a business card for me. They were so in-depth and precise; **they actually forced me to think harder about what message I wanted to convey.** Boy, am I glad they did!

One year later, Can-Do-Graphics has been number one....putting together not only my business cards, but my brand new brochures and an 8' X 10' banner for my exhibitor shows! I am VERY pleased and can finally **focus my time on the most important part of my business instead of spending time at my computer.**

I will use them in the future and highly recommend them to anyone wanting to brand their business.

- Mindi Boysen - Fit for Golf Fit For Life

I was reluctant about promoting my business because my business image wasn't professional, **I felt I was "small time"** and I couldn't compete with larger, more established companies, so I was apprehensive about promoting my business.

After working with Can-Do Graphics, I know they've given me a lot of credibility in the marketplace. **I feel more confident**, and while I used to be hesitant before in promoting my business **I now have no hesitation** in giving out my business cards, going to home shows and sending people to my web site - **I would have never been able to do that before.** I am doing things that I would have never done before and I can now compete with bigger companies.

What I got and what I paid for was very reasonable. **I constantly get positive feedback** from people about my business identity; they mention how great the business cards look and how unique my business identity looks.

- Jason French - Home Theater Innovations, LLC.

Working with you was **the best decision** we've ever made for our business.

You have a unique talent to make the ordinary look extra-ordinary in such an incredible professional way. I have a product that looks as if was designed in high pressure graphics office in NY City. From our first meeting, I had confidence in your expertise to develop a "one of kind" card, letterhead & contact form to promote my custom jewelry business. You definitely have the unique talent to fill the void for all the new businesses being developed in our fast growing city. I am excited & wish I could of had this business card 10 years ago. YOU ARE THE BEST!!!! Your expertise can not be surpassed!

- Jeanne Jewel, Jewelry Artisan of Jeanne Jewel, LLC.

I knew that I didn't have to worry about anything once you got the project started. Once I said go (at the beginning of the project) I knew that I could rely on your expertise and I wouldn't have to "baby-sit" you. Not only do I have a great new (and unique for my industry) website, but I also have a better understanding of my own marketing and branding.

You have an unbelievable devotion to your client to make sure they get exactly what they want, even if your client doesn't know what they want at the very beginning of the process. You take a true interest in your client. I had mentioned to you that a friend of mine (in a high tech business) used someone else for their website and it was pretty much a nightmare. I wish that I could have referred him to you before he started his endeavor. You would have made his life go a lot smoother for the number of months it took for his website.

Jim Gordon, President of NorthStar Identity Promotional Products

I ABSOLUTELY LOVE IT!!! Everything looks phenomenal!! You are great at website design! Thanks for everything! I'm extremely happy with how it is turning out. I can't wait to see the "real" website!

Besides just doing a great job overall, I was most happy with the way you responded with any changes that needed to be done or any concerns I had. You really had everything done ahead of schedule.
